### LOCAL EMERGENCY CALLS

FIRE POLICE	
-------------	--

It is suggested you immediately ascertain the correct telephone numbers which should be called in an emergency and list them above

For the Telephone Number or Address of the nearest
Federal Bureau of Investigation Office Call.....''Information''

### SERVICE CALLS

For numbers not listed herein
To report a telephone out of order
For assistance in calling
For new service, moves, bills, listings, etc.  Call "Business Office"

### **OUT-OF-TOWN CALLS**

To make an out-of-town call give the number to your local operator if it is a station-to-station call, or ask her for "Long Distance" if it is a person-to-person call.

### Station-to-Station Calls

When you will talk with anyone who answers the called telephone or private switchboard, give the operator the desired telephone number. If you do not know the number, give her the name and address. The charge for a station-to-station call begins when the called telephone or private switchboard answers.

# Person-to-Person Calls

When you want to talk to a particular person or reach a particular telephone or

department served through a private switchboard, tell the operator the person or department you want and the telephone and extension number if you know them. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension, or department you want.

If the particular person called is not available and you talk with someone else the person-to-person charge will apply.

### Collect Calls

Upon request, charges on most calls to points in the United States, Alaska, Canada, Cuba, Hawaii and Puerto Rico may be collected at the called telephone. Tell the operator you want the call made collect.

### GENERAL INFORMATION

# Identification of Employees

Employees who are authorized to examine, exchange or remove any of this Company's apparatus carry an identification card showing the name of the company, a serial number, the name and signature of the employee and the countersignature of the General Plant Manager.

# Attachments to Telephones

The Company does not sanction the use of special devices attached to its telephones. except those furnished by it. Unauthorized attachments, supposedly an added convenience, may actually be detrimental to good service.

# Directory Accuracy

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in making up or printing of this directory.

Please report to your Business Office promptly, any incorrect listings so that our records may be adjusted for the next issue and your service be protected in the meantime.

# TELEPHONE BILLS

Telephone bills are due upon presentation. When payment is made in person, the bill should always be presented. When remittance is made by mail, please address it to the Business Office, accompanied by the bill stub. If the bill has been mislaid, kindly enter your telephone number on the check to identify the payment.

### BILLING DATE

Telephone bills are dated the 19th of each month and are mailed a few days later.

# EXPERIENCE

The provision of efficient telephone service requires a personnel which has become skilled and competent through training and tenure of employment.

Present Bell System employees constitute the most experienced force the telephone industry has ever had.

Nearly one-half of them have service records of from ten to twenty years. About one-fifth have been employed more than twenty years. Somewhat less than one-tenth have from five to ten years of service, while the remainder, about one-quarter of the total force, have been hired during the last five years.

EVEN before there was a telephone, there was a laboratory—that of Alexander Graham Bell in Boston, where the telephone was born. That was a long time ago, but the telephone is still being invented.

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly today over the telephone because of these men of science.

From these Laboratories, among a thousand and one other things, have come new types of telephones, cables no thicker than your wrist carrying 4200 wires, even the wire networks over which nation-wide broadcasts\* come to you.

The Chesapeake and Potomac Telephone Company—YOUR company—shares with the other twenty-three regional companies of the Bell System in the benefits of the Laboratories' research. And every telephone user benefits in the better service it makes possible.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is a part of the miracle that this is done so swiftly, so easily and so cheaply.

Good in design, high in quality, low in cost and ready when needed—these are your telephone company's requirements for equipment. For half a century, the Western Electric Company has met these requirements through specialized manufacturing and distribution. By serving the Bell Telephone Company in this city and in every section of the country, it has helped make this nation's telephone service what it is today—the best in the world.

We want your telephone service to be quick and good and cheap. But there is more to it than that. We want it to be courteous, too. No matter what the occasion, there's always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way. It is one of the fine traditions of the telephone business.

## MORE THAN A MILLION TIMES EVERY DAY . . . .

the patrons of this company use their telephones. Every call they make is different . . . each made to order. Its quality is measured not alone by its promptness, reliability and low cost, but also by the courtesy with which it is given.

The aim and ideal of our organization is to give you friendly, dependable telephone service at the lowest possible cost.

AVE you noticed how often courtesy seems to go hand in hand with efficiency? Take the simple matter of talking over the telephone. Chances are the people to whom you most enjoy talking are those who

- answer promptly when you call . . .
- give their names at once when they answer . . .
- speak clearly and naturally all through the talk . . .
- and when the conversation ends, hang up gently.

Right now, when times are tense, good telephone habits are probably more important than ever. We've got a big job to do and the thoughtful and courteous use of the telephone helps us all to do it faster and better.
